

4th April 2022

Dear Parents, Carers, and Guardians

While staffing levels continue to be an ongoing challenge and staff continue to test positive, we are intending to **open to all students from Tuesday 5th April.**

As explained previously, Covid absences and general staff illnesses are a major issue for most schools at the moment, and the guidance to all Flintshire employees is that following a positive test they should isolate for at least 5 days, and remain isolated until they have two negative LFT results. This has made planning in advance very difficult.

While we believe that we have secured enough supply cover for the immediate future, if absences continue to rise then it may be necessary to return to online learning for some year groups, to ensure the safety of all our students. If this is the case then we will endeavor to provide as much advance notice as possible.

Thank you once again for your continued support.

Yours sincerely

John Weir
Head Teacher
